Subject: Mark Assini Calls a Press Conference on the IJC Plan 2014
Date: February 22, 2016
Time: 11:00 am
Location Roger Robach Community Center

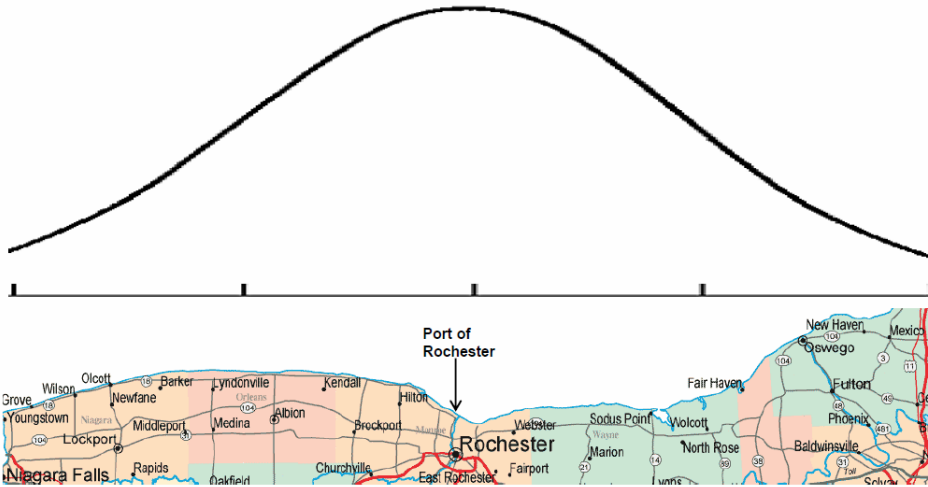

Our nation has seen a string of bad trade deals and treaties which have Americans shaking their heads. Plan 2014 is one more on the list of bad ideas.

The International Joint Commission has developed a Lake Level Plan known as Plan 2014 which breaks a commitment made in 1958 to property owners along the Southern Shore of Lake Ontario. Plan 2014 will destroy property, cause taxes to rise and leave a trail of broken dreams for both home owners and business owners alike right here in Monroe County.

Plan 2014 is a non-starter and must not be implemented. Join me in calling on our Federal Officials to oppose Plan 2014. We have invited elected officials including representatives from Congressmen John Katko and Chris Collins to speak out against this proposal. Please join us on the 22nd.

Damage Distribution to Lake Ontario South Shore with Plan 2014

*IJC damage estimate \$2-3 million per year based on LOSL Study 2000-2006
*LORA estimate \$5-6 million per year in light of outdated data
